

Riester babyphon®

BLOOD PRESSURE MANAGEMENT

Suitable for children, all in blue! The palm-style sphygmomanometer especially for **paediatrician's offices and hospitals**. Also available as a non-latex model (please quote LF for latex-free).

- › Choice of either chrome, sturdy plastic /metal or shock-protecting polycarbonate casing.
- › Fast inflation of the cuff due to new ergonomic spoon design.
- › Lifelong precision due to almost non-aging precision movement, with specially tempered copper-beryllium diaphragm for pressure-loading capacity up to 600 mm Hg.
- › Micro-filter protects pressure-release valve and measurement system.
- › Linear scale, up to 300 mm Hg.
- › Maximum error tolerance of +/- 3mm Hg.
- › Includes padded nylon zipper bag.
- › Comprehensive range of different cuff sizes and designs.
