The hydrophilic coating provides a smooth wire surface that aids in the advancement of the ureter.

The nitinol core's high kink - resistance makes it easier to traverse stenoses and strictures.

1: 1 torque ratio for optimal steering.

Available in a variety of tip configurations,which can navigate ureteral strictures while minimizing trauma.

# Disposable Urological Guidewire

Used to gain ureteral access, to establish a tract and to assist in the guidance placement of medical devices during urological procedures.
